PURITY OF DESIGN

On any land, on any road, wherever you want to go, the BMW GS is the best of the company and it is strong of its chassis, suspension and its engine can always guarantee great comfort and performance. Improved on road and off-road, the "GS" has a powerful and reliable two-cylinder boxer engine capable of guaranteeing great driving pleasure in every situation. Just like the "GS", the new family of exhausts by HP CORSE loves the adventure fully embodying the desire of evasion and the purest motorcycling spirit. Tested at the dyno-test and in the most demanding situations, the new exhausts guarantees reliability and gives the BMW GS slimmer rear lines that improve driveability while the powerful twin-cylinder gains in particular in the low and mid-range. Laser-engraved logo, a silencer body available in three different materials (Titanium, Satin Steel, Ceramic Black Steel), which, whatever the choice, will always be lighter than the original "GS" exhausts. The back is octagonal shaped with a hydroformed and carbon fibers end-caps. Euro 4 approved has a length of 400 mm or 300 mm only for race.

BMW R 1250/1200 GS	Weight  Kg	Sound dbk 	Sound no dbk 	Power dbk (1200 cc) <i>POWER</i>	Power no dbk (1200 cc) <i>POWER</i>
STOCK	4,9 kg.	91,5 dB at 3875 rpm	91,5 dB at 3875 rpm	119,36 cv (GS 1200)	119,36 cv (GS 1200)
TITANIUM	3,470 kg	94 dB at 3875 rpm	98dB at 3875 rpm	120,47 cv (GS1200)	125,47 cv (GS1200)
